CONTENT MANAGEMENT & MIGRATION PROJECT

For a company providing Enterprise Content
Management Solutions

WITH TODAY'S INCREASED USE OF ENTERPRISE CONTENT MANAGEMENT (ECM), A POWERFUL MIGRATION TOOL IS A MUST IN EVERY MAJOR INSTALLATION.

CLIENTS

Our Client focuses on **Enterprise Content Management (ECM) Solution** for all type of industries including Life Sciences.

SCENARIO

The client wanted a powerful migration tool to cope up with the increased use of **Enterprise Content Management (ECM)**.

SOLUTION

The team at Borek leverages on our client's most powerful tool, which can migrate the content from the **source system to the target system**.

TEAM

Borek has a highly skilled and experienced team of **ECM experts, SME Migration, Senior Engineer & Junior engineer** to manage various projects for content management and cloud migration.

IMPLEMENTATION

Requirement understanding phase

- Our highly experienced content migration Team at Borek **understands the requirement** and goes through the existing system and creates the mapping sheets, which can map the existing environments data with the new environment.

Clearly defined process and workflow

- Borek Team **creates the scanners** which can read the source tables and stores them inside the migration center database.
- Post that the team gathers the target environment's information **creating the migration set** rules and associates those rules and attributes with the target environment.
- Once the association is done, Borek's team applies those rules on the data and **imports them in the target environment**.
- The team does the **testing** wherever required.

HIGHLIGHTS

01

Open Connectivity Architecture helps connect with any of the CMS tools.

02

Zero downtime via delta migration concept.

03

Good exposure to Open Text, RighFax and Kofax tools.

04

Experience on tools like **Cara, Documentum, Interwoven and Sharepoint.**

KEY BENEFITS
